

Agenda for 2010 ARC Webinar

September 28th, 2010, 1:00 – 3:00 p.m. Eastern / 10:00 - 12:00 Pacific

Adaptation in Electricity Generation and Distribution in Canada

This webinar will provide an overview of how electricity generation and distribution systems are vulnerable to climate change and what can be done to make them more resilient. Participants will be able to ask questions of the speakers using their phone lines as well as by typing in questions. Participants are also invited to join a general discussion following the presentations to share information on the vulnerability of electricity systems in their communities to climate change and the challenges and benefits of making them more resilient.

Chair: Erica Pinto, Clean Air Partnership (CAP)

- 12:50- 1:00 pm:** Technical Introduction
New participants and those who wish to review the technical aspects of participating in the webinar should sign in early.
- 1:00 – 1:10 pm:** Erica Pinto, CAP Welcome
