# SPEAKER PROFILES

## Chris Turner

Chris Turner is a Canadian author of *Planet Simpson: How a Cartoon Masterpiece Documented an Era and Defined a Generation*, published in 2004. His latest work "Great Leap Sideways" 2010 follows up his book ***Geography of Hope: A Guided Tour of the World We Need***. The latter was listed on the *Globe & Mail's* 2007 "Globe 100" list of the best books of the year. Turner writes a monthly column on sustainability for the *Globe & Mail*.

## David Buckland

Since 2001 David Buckland has created and now directs the Cape Farewell project, bringing artists, scientists and educators together to collectively address and raise awareness about climate change. The artists have already been the subject of a film for The Culture Show and a BBC documentary. The art resulting from these fruitful journeys has been shown at the Natural History Museum, London, the Liverpool Biennial and the Sage Gateshead, Newcastle.
