

# 2010 ARC Webinar #4

## Interpreting, Using and Communicating Climate Projection Information

May 18, 2010

**Clean Air  
Partnership**

# Upcoming Webinars

**Jun 15** Making the Built Environment Resilient to Climate Change

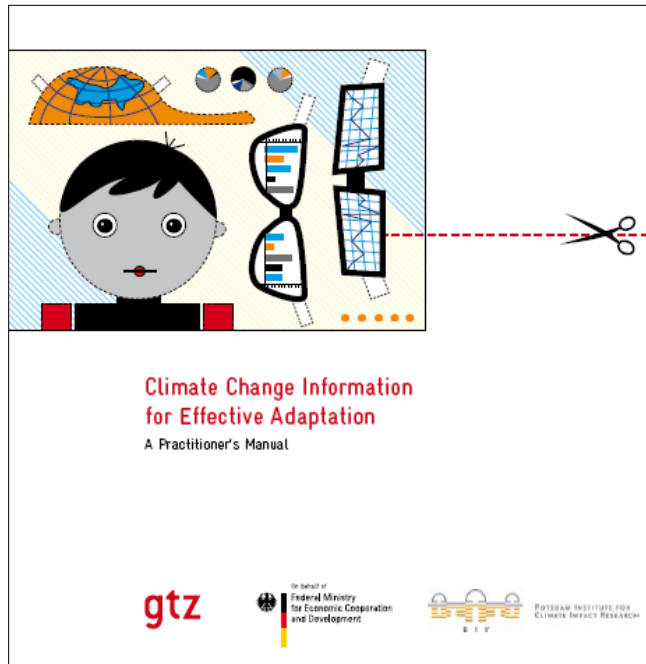

**Sept 21** Climate Change and Energy Supply

**Oct 19** Support for Community Adaptation at the Provincial and National Level

**Nov 16** State of Adaptation Planning in Canadian Municipalities

# 2010 ARC Webinar #4

## Some Resources for today

[Climate Change Information for Effective Adaptation: A Practitioner's Manual](#) GTZ, Germany (2009)

[Adapting to Climate Change: A Socioeconomic Priority Determining Priority Issue Areas](#)

(Public Event Backgrounder) Rossland BC Visions to Actions Sustainability Commission

# 2010 ARC Webinar #4

## Interpreting, Using and Communicating Climate Projection Information

**Dominique Paquin, Ouranos**

**An introduction to climate modelling: from  
model anatomy to data applications**

# Questions for Discussion

When and how are you using climate projection information?

What kinds of methods have you used to communicate about weather/climate projections?

Have you experienced any difficulties or challenges when trying to communicate about projections/trends?

# More Questions for Discussion

Why do you need or want to use climate projection information?

Who will you need/want to communicate climate projections to?

How confident do you feel in your ability to interpret and communicate projection information?

2010 ARC Webinar #5  
June 15, 2010 1-3pm ET
