### **New Enbridge Gas Distribution Fund Supports Cleaner, Healthier Air**

TORONTO, June 7, 2006 – Enbridge Gas Distribution today announced the launch of the Enbridge Aware Fund which will provide grants to not-for-profit organizations for projects that help improve air quality. The announcement was made at the 2006 Smog Summit in Toronto.

“We are pleased to launch the Enbridge Aware Fund which clearly reflects the 2006 Smog Summit theme, Partnerships for clean air,” said Lino Luison, Vice President, Enbridge Gas Distribution. “Enbridge is focused on air quality solutions that make both business and environmental sense such as delivering energy efficiency programs, reducing our own energy use and investing in renewable energy such as wind power. Businesses like ours must also support like-minded grassroots activities to improve air quality.”

Projects that reduce smog, improve public health through clean air initiatives, contribute to improved outdoor air quality, engage volunteers in air quality initiatives or provide public education and awareness campaigns about outdoor air quality will be eligible for funding. Organizations must operate within Enbridge Gas Distribution’s service area and have a charitable registration number.

Organizations can obtain more information and apply for a grant from the Enbridge Aware Fund at [www.enbridge.com/aware](http://www.enbridge.com/aware).

Enbridge Gas Distribution has an almost 160-year history and is Canada’s largest natural gas distribution company. It delivers safe, reliable and environmentally-preferred natural gas to about 1.8 million customers in many Ontario communities. Enbridge Gas Distribution is a leader in promoting energy efficiency programs. Enbridge Gas Distribution is owned by Enbridge Inc., a Canadian-based leader in energy transportation and distribution. Enbridge Inc. also owns and operates three wind farms in Canada and has proposed a 121-turbine wind project in Ontario.
