

## Clean Air Council Webinar:

### **Geothermal multi-unit communities Webinar – low carbon case examples**

This webinar is part of a series on climate solutions that the Clean Air Partnership will provide throughout 2020. Bruce Nagy, author and host of the series presented a district geothermal community in Richmond BC and a 7500-home micro-grid geothermal neighbourhood in Austin Texas.

In the second part of this webinar Adam Alaica, Engineering Manager for GeoSource Energy Inc. talked about a modern condominium with geothermal in Toronto, and other southern Ontario multi-unit projects with geothermal heating and cooling.
